PROFESSIONAL OVERVIEW

A dedicated and results-driven Full Stack .NET Developer with over 11 years of experience in developing cutting-edge web applications and delivering end-to-end solutions. Adept at building and optimizing scalable, high-performance applications using .NET Core, ASP.NET, Entity Framework, Angular, React.js, and Azure.

Proven ability to design and implement modern architecture and microservices-based systems, driving project success in diverse domains including healthcare, fleet management, and legal systems. Skilled in Agile methodologies, continuous integration, and DevOps practices, ensuring high-quality code delivery and efficient workflows.

Known for strong collaboration, problem-solving skills, and a proactive approach to delivering robust and scalable software solutions. Passionate about continuous learning and staying current with emerging technologies to build systems that drive real business value and enhance user experience.

CORE SKILLS & EXPERTISE

Full-Stack Development

ASP.NET Core, .NET Core, Web API, Entity Framework, SQL, JavaScript, TypeScript, Angular, AngularJS, React.js, Vue.js, WEB Assembly, PWA

Cloud & DevOps

Microsoft Azure, Azure Functions, Azure App Services, Azure DevOps, GitHub Actions, CI/CD Pipelines, Docker, Kubernetes (intro level)

Architecture & Design

Microservices, Event-Driven Architecture, Clean Code, SOLID Principles, REST

Tools & Platform

Visual Studio, VS Code, DevExpress, Git, Postman, Azure Boards, Jira

Team & Project Management

Team Leadership, Agile/Scrum, Requirement Analysis, Code Review, Project Architecture, Client Communication

PROFESSIONAL EXPERIENCE

Module Lead

WinWire Technologies India Pvt Ltd, Bengaluru | Oct 2022 – Present

- Spearheaded the design and implementation of a legal document management system leveraging .NET Core, React.js, and Progressive Web Applications (PWA) to ensure high scalability and performance.
- Architected microservices-based solutions, optimizing SQL queries and backend logic to enhance data handling, efficiency, and response times.
- Led code quality enforcement through continuous integration (CI) and continuous delivery (CD) practices, ensuring streamlined deployment processes.

- Mentored junior developers, ensuring knowledge transfer and adherence to best practices in clean code, microservices, and Azure cloud services.

Key Technologies: .NET Core, ASP.NET Core, Azure, Vue.js, WEB Assembly, Entity Framework

Analyst Programmer

NINtec Systems Limited, Ahmedabad | Jul 2020 – Oct 2022

- Designed and developed a Fleet Dealer Management System using .NET Core and Angular, improving operational efficiency and system reliability.
- Managed sprint planning and delivery processes for a 7-member team, ensuring timely project delivery and high-quality code standards through Agile and DevOps practices.
- Integrated Azure DevOps and CI/CD pipelines for automated testing, deployment, and monitoring of applications.
- Delivered high-impact client solutions, driving business growth through custom system designs and technical expertise.

Key Technologies: Angular, WEB Assembly, ASP.NET Core, Microservices, SQL, Azure DevOps

Technical Lead

Integensoft Pvt Ltd, Ahmedabad | Feb 2019 – Jun 2020

- Led the architecture and development of hybrid backend systems, integrating .NET Core and Node.js to meet the diverse needs of mechanical and chemical domains.
- Implemented microservices to enable modular and scalable software solutions, enhancing system flexibility and performance.
- Spearheaded Azure-based project setups, utilizing Docker and Kubernetes for containerization and orchestration of services.
- Delivered dynamic client-facing solutions, including real-time demos and DevExpress document automation, improving customer satisfaction.

Key Technologies: .NET Core, Angular, Azure DevOps, Docker, DevExpress, Kubernetes

Senior Software Engineer

NINtec B.V., Ahmedabad | Dec 2017 – Feb 2019

- Directed the Angular-based development of a Fleet Management solution, optimizing user experience and reducing system latency.
- Enhanced code quality through Test-Driven Development (TDD) and implemented unit testing, ensuring robust and reliable application performance.
- Integrated Microsoft Azure services to streamline cloud-based deployments, improving scalability and application management.
- Collaborated with cross-functional teams to gather requirements and ensure alignment with business goals, driving the development of scalable and secure solutions.

Key Technologies: ASP.NET Core, Angular, SQL, Entity Framework, Azure DevOps

Senior Software Developer

Infibeam (DRC Systems India Ltd), Ahmedabad | Apr 2016 – Nov 2017

- Migrated legacy ADO.NET applications to Entity Framework, improving code maintainability and performance.

- Developed multilingual systems and integrated payment and admin portals, enhancing functionality and user engagement.
- Utilized oData APIs and Azure for seamless integration with third-party services, streamlining business operations.
- Played a key role in optimizing legacy systems and ensuring smooth system migrations, minimizing downtime and disruption.
  Key Technologies: ASP.NET Core, Angular, SQL, Entity Framework, Azure DevOps

Software Engineer

Intellial Solutions Pvt Ltd, Ahmedabad | Aug 2014 – Apr 2016

- Led the development of various modules such as PCB management, CRM systems, and chat applications, contributing to overall product enhancement.
- Optimized database-intensive applications to improve performance and reduce latency.
- Worked closely with clients to ensure requirements were met, delivering high-quality solutions on time.
- Actively participated in the full software development lifecycle, from planning and design to coding and deployment.
  Key Technologies: ASP.NET Web API, SQL, Entity Framework

Web Developer

Zofax Web Solutions, Ahmedabad | Sep 2013 – Aug 2014

- Developed property management modules for real estate agents, improving client management capabilities.
- Participated in server deployment tasks, ensuring proper functionality and integration with the web application.
- Collaborated with team members to troubleshoot and resolve basic application issues during development and testing phases.
- Gained hands-on experience in backend development and SQL-based database management, learning to optimize queries for performance.
  Key Technologies: ASP.NET Web API, SQL

EDUCATION

MCA | Master of Computer Application

The Oxford College Of Engineering, Bangalore — 2010 – 2013 | Graduated with 74.50%

BCA | Bachelor of Computer Application

Dept. of Computer Science & IT, Udaipur, Rajasthan — 2007 – 2010 | Graduated with 67.50%

OPEN SOURCE & PORTFOLIO PROJECTS

- **GitHub Portfolio**: github.com/DeveloperClue — Hosting proof-of-concept (PoC) and experimental projects exploring modern .NET technologies and frontend frameworks like Angular and React.
- Projects demonstrate hands-on skills in building REST APIs, basic microservice structures, and UI integrations.
- Focus areas include clean code practices, layered architecture.
- Portfolio reflects continuous interest in learning and experimenting with scalable full-stack solutions.
